installation video

### Caution

- Keep children and animals away from the desk during use. Ensure the desktop is not touching any walls.
- Remove obstacles taller than 20"/51 cm from underneath the desk.
- Operate only in a working environment temperature of 32°F-104°F/0°C-40°C.
- Keep product away from corrosive gases, liquids and dusty objects.
- Keep hands, feet and other body parts in a safe position during operation. Anti-collision is not automatically enabled during all resets.
- The company does not bear any warranty or liability for damage and human injury caused by any abnormal or un-intended operation of the equipment.
- It is necessary to perform a manual reset after the initial installation or power cycling the equipment.

# Frequently Asked Questions (FAQ)

## One-Sided Desk Lifting

### Possible Cause

The sync rod is not installed correctly.

### Solution

Check if the sync rod is fully inserted into the leg column. If not, lower the desk to its lowest position and reinstall the sync rod referring to the leg installation sticker or the instruction manual.

If the above steps do not solve the problem, please take a video of the issue and contact after-sales support at [support@yfs.life](mailto:support@yfs.life).

<b>Handset Malfunction or No Response</b>	<p><b>Possible Causes</b></p> <ol style="list-style-type: none"> <li>1. Power is not connected correctly.</li> <li>2. Controller has poor contact or is malfunctioning.</li> <li>3. Fuse is blown or the power module is faulty.</li> </ol> <p><b>Solution</b></p> <p>Disconnect all cable connections and reconnect them. Check if all cables are connected correctly and tightly. Make sure the power plug is inserted into the power outlet.</p> <p>If the above steps do not solve the problem, please take a video of the issue and contact after-sales support at support@yfs.life.</p>
<b>Desk Tilting or Unbalanced</b>	<p><b>Possible Causes</b></p> <ol style="list-style-type: none"> <li>1. Improper installation causing imbalance.</li> <li>2.
